♦ Ingredients & effect	<p>Aloe Vera: the vitamin E in fresh aloe vera leaves enhances the oxygen uptake in the cells, effectively preventing the skin from premature aging and the appearance of wrinkles. Dry and wrinkly skin gets back its peachy and firm look and feel, irritations and redness on sensitive skin are reduced and pimples and inflammations heal more quickly due to the plant's unique robust constitution and special properties. This marvelous gel stabilizes the skin's natural hydrolipidic film, protecting it from harmful environmental influences. By means of natural cell regeneration, the skin is provided with essential nutrients while the cell growth is stimulated: skin cells that are treated with aloe vera products grow six to eight times faster than usual. This effect is very appreciated, especially when the skin is sunburnt. Furthermore, gel from the fresh leaves of aloe vera favors the formation of collagen deposits in the skin. Collagen smoothes the skin from inside, giving it back its young and elastic look.</p> <p>Lemongrass Oil: in addition to its' refreshing and vitalizing quality, it has a tightening effect on the connective tissue and helps with cellulite.</p>
