♦ Ingredients & effect	<p>Camellia: Camellia seed oil is extracted from the seeds of the camellia tree. It is of low viscosity and has multiple applications. With its sweet aroma and its high content of unsaturated fatty acids and gamma-linoleic acid, it is particularly effective against itching, atopic dermatitis, dandruff and redness.</p> <p>Argan oil: contains multiple essential fatty acids that have a healing and firming effect on allergies, acne and atopic dermatitis. In traditional Moroccan medicine, argan oil is used to treat the most diverse skin diseases. It is very effective for intensive sun exposure. The skin protecting effect of argan oil is due to its content of tocopherols (vitamin E) that, along with other polyphenols, provide for the oil's excellent durability.</p>
	 <p style="text-align: center;">Camellia</p>
♦ Goes well with	All facial care lines
♦ Skin type	All
♦ Psychological action (scent)	These carefully selected oils are particularly well absorbed by the skin without leaving an oily film. They are recommended even for very sensitive, oily and impure skin.
♦ Effects on skin	Rich and effective additional care (serum). With its high content of antioxidants, it works against the skin's aging process.
