♦ Ingredients & effect	<p>1. Calendula extract: has anti-inflammatory and antibacterial properties and enhances the natural healing process of wounds, burns, abrasions, etc. It is particularly effective when it comes to rejuvenating the skin as its flavonoids, saponins and triterpenes have anti-inflammatory, antimicrobial, antiviral and antimycotic properties, which probably are the reason for the wound-healing effect of calendula blossoms. An antibacterial effect can also be found in essential calendula oil. Furthermore we know that calendula extract supports the formation of new connective tissue and small blood vessels in wounds (granulation tissue) and stimulates the immune system.</p> <p>2.
