♦ Ingredients and effect	<p>Coconut oil: cools, protects and stabilizes the skin (especially with atopic dermatitis and scaly skin) and is used to enhance the skin moisture. Coconut oil is a solid vegetable oil and also known as coconut butter or coconut fat. It is rich in caprylic, lauric and myristic acids, with its composition being similar to babassu oil's. In many tropical regions coconut oil is used as a traditional ingredient for skin and hair care. Due to its nourishing properties it is also used in some of our Just Pure products.</p> <p>Vanilla: The healing properties of vanilla enhance our physical and mental capabilities and activate new energies. The sweet vanilla aroma alone has an immediate calming and soothing effect. Not only does it bring back childhood memories, it also enhances your mood: vanilla cheers you up and can even help overcome fears, fatigue and depressive moods. The aphrodisiac effect of this precious orchid was even proved scientifically!</p>
