♦ Ingredients and effect	<div style="display: flex; flex-direction: column; align-items: center;">  <p><b>Healing stone amethyst</b></p>  <p><b>Crown chakra</b></p> </div> <p><b>1. Amethyst:</b> This violet healing stone is one of the most popular and beautiful jewels, well known in esoteric circles for its energizing and healing power and already very appreciated by Hildegard von Bingen. The amethyst is said to have stabilizing and protective effects, particularly for inflammatory and very sensitive skin.</p> <p><b>2. Camellia seed oil:</b> Similar to evening primrose oil, it is used for dry and sensible skin. It is obtained from the tea tree, presenting an even higher content of gamma linolic acid than hemp oil and primerose oil. It is considered to be the vegetable oil with the highest percentage of GLA. The oil is used for extremely sensitive, dry, flaky and chapped skin or against psoriasis.</p> <p><b>3. Gold-of-pleasure oil</b> has a moisturizing and regenerating effect, being able to alleviate itching. Penetrating deeply into the tissue and the cell membranes, it boosts the cell metabolism. Gold-of-pleasure oil has a high content of mono- and poly unsaturated fatty acids. As opposed to other vegetable oils, its combination of omega 3 and omega 6 fats is particularly beneficial, providing for a longlasting antiinflammatory and healing effect.</p>
