♦ Ingredients & effect	<div style="display: flex; align-items: flex-start;">  <div style="margin-left: 10px;"> <p>Orange blossom oil (neroli): it takes 1 metric ton (1000 kg) of orange blossoms to obtain 1 kg of neroli! This precious essential oil is produced through steam distillation or extraction with organic solvents. There is neroli water, that mainly contains the alcoholic components, and the concentrated neroli oil, that mainly contains the terpenes. The oil from the orange blossom (neroli oil) is one of the most expensive oils worldwide. It seduces with its sweet and flowery fragrance and is traditionally used in skin care. It has tautening, regenerating and analgesic properties and improves the skin's own blood circulation. Flower waters are obtained from the distillation of essential oils and known for their vitalizing, stimulating and refreshing effect.</p> <p>Organic alcohol: pure undenaturated ethanol (96%) from premium quality wheat distillate is particularly appreciated for use in tonics, mouthwashes or sprays.</p> </div> </div>
♦ Goes well with	Honey Neroli and Sage Mint skin care lines
♦ Skin type	Normal and combination skin
♦ Psychological action (scent)	Fresh, tart, aromatic
♦ Effects on skin	Vitalising and stimulating facial water for every skin type – especially normal and combination skin. Use after cleansing.
