♦ Main ingredients & effect	 <p>Jojoba nut</p> <p>Jojoba oil: is extracted by cold-pressing the jojoba seeds followed by a filtering process. The oil deeply penetrates the skin protecting it, regulating the skin moisture and stabilizing its hydrolipidic film – an important aspect for irritated skin and atopic dermatitis. Its particular properties make jojoba oil a highly appreciated ingredient for our products. With its favorable composition of fatty acids jojoba oil nourishes, protects and smoothes the skin and enhances its ability to bind moisture. It has anti-inflammatory properties, does not leave an oily film on the skin and is characterized by an unusually high skin-friendliness making it appropriate for all skin types. Furthermore it has a high content of vitamin A and E as well as a natural sun protection factor. It is an excellent moisturizer that efficiently reduces symptoms like dry and itchy skin. Ginger oil: powerful antiseptic with a warming effect on your body. It enhances the blood-circulation and reduces medical conditions including rheumatism, muscular cramps and pain.</p>
